

PRODUCT PORTFOLIO

Innovative Products for
the South African Market

Leading the way in the healthcare market.

Who is Cirrus and what do we represent?

Cirrus Healthcare Products was founded in 2008 with the aim to introduce specialised ear care products into the South African Market. A passion was born to provide a wide range of ear plugs that not merely protected a person from sound but also helped with pressure relief, ear pain and repetitive ear problems in adults and children. Over the last 17 years Cirrus Healthcare Products South Africa have added many successful ranges to our portfolio in the Healthcare Sector, hair care, skin care, scar care and baby care. Our portfolio includes all the products we supply.

Body & Soul	14

PREMIUM EARPLUGS

EARPLANES

To understand this product fully, we first have to understand how the ear works in pressured environments. Due to rising pressure within the plane cabin, there will be distention on the tympanic membrane (Ear drum). This in turn causes what is known as "Baro-challenge-induced eustachian tube dysfunction" or "Obstructive Eustachian tube dysfunction", which is the pain you feel due to an excess of pressure within the eustachian tubes.

What are "Eustachian tubes"?

The Eustachian tubes are pathways that connect the middle ear to the sinus cavity, and the function is to mainly regulate pressure, as well as inner ear and nasal drainage. In the event that the eustachian cannot relieve the pressure due to the aforementioned dysfunction, that is when we usually yawn or swallow for the "Popping" in our ears, which is the release of pressure within the eustachian.

Earplanes is the simple solution to this issue, as more than 45% of plane passengers suffer from ear pain.

This product, which was tested with navy pilots, stewardesses and commercial pilots, regulates the pressure on the outside of the ear drum, as to circumvent the excess pressure on the inner ear. This is achieved through what we call a CeramX filter, which is a small filter that sits in the middle of the earplug that regulates the pressure between the ear drum and the outside atmospheric pressure. Allowing you to have a pain free flight experience.

IMPORTANT NOTES:

Earplanes are reusable

2 sizes sold separately, convenient for both bigger and smaller ears

Earplanes are safe to use with sensitive ears, has no allergens, can act as a noise suppressor, and is safe to use with kids.

People with smaller ears are advised to use Earplanes child to ensure snug and comfortable fit, in the ear canal.

EARPLANES ADULT SKU 11201 1PAIR
EARPLANES SMALL SKU 21001 1 PAIR

PREMIUM EARPLUGS

BIOEARS:

South Africa's only ANTIMICROBIAL earplug. Created with the active ingredient "ActivAloe" which is an aloe vera derivative, that is freeze dried, crushed, and reconstituted into the soft silicone. Bioears helps prevent swimmers ear by keeping water and bacteria out of the ear, however, Swimming only accounts for 20% of water exposure to the ear on average, and thus it is very important to note that this product is not only for swimmers, but anyone who suffers from repetitive ear infection and should be used any time sufferer is water exposed ie bathing, showering or washing hair.

BioEars being Antimicrobial helps to extend the life span of the earplug as well as prohibit dirt and germs from adhering onto the earplug, but it is crucial to know that you should not use an earplug, that you may have used for one ear, for the other ear, as this can lead to cross contamination in those who suffer from ear infections.

KEY FEATURES:

- Water proof
- Reusable
- Suitable for all ages
- 3 pairs contained in a handy carry case
- Comfortable sound protection

Endorsed by Olympic Swimming Champion Christine Magnuson

CLEAREARS:

WATER ABSORBING EARPLUGS.

Ideal for after any form of water exposure such as swimming, diving, bathing and showering. This innovative design draws water trapped in the ear canal from the ear in a quick and convenient way. By absorbing water it helps to alleviate discomfort and problems that may arise due to water being trapped within the ear canal, such as eczema. It is made of a soft absorbent material and provides a safer more convenient alternative to ear drops.

KEY FEATURES:

- Prevents swimmers ear and discomfort
- Alcohol free
- Dries and relieves pressure in minutes.
- Earth friendly- can be used to retain water in house plants
- 5 pairs in a handy container.

Endorsed by Olympic Swimming Champion Christine Magnuson

CARTOONZ EARPLUGS

cartoonz™
SOFT SILICONE EAR PLUGS

CARTOONZ

SOFT SILICONE EARPLUGS & NOSE PLUGS FOR WATER AND NOISE EXPOSURE.

Cartoonz Soft silicone Earplugs & Nose plugs were launched to encourage young children to wear ear protection during loud noise events and water exposure such as swimming, bathing and washing hair.

KEY FEATURES:

- Comes in a handy 3 pair carry case
- 3 styles to choose from.
- Offers a 26 decibel noise protection rating
- Nose plugs come in a combo ear and nose plugs box

SOFT FOAM SKU 46646 5 PAIRS

SWIMPLUGS CHILD STRINGED SKU 46622 2PAIRS
SWIMPLUGS ADULT STRINGED SKU 46639 2 PAIRS

BREATHE BETA

BREATHE BETA

Breathe Beta, a completely natural and organic formula, provides hay fever, sinus and cold sufferers with a natural alternative to inhalers and rubs. With a combination of Essential oils, they open up the airways and help to relieve blocked and congested noses and sinus.

Place on the pillow or on a tissue - this relaxing aroma helps you to Breathe better.

It is also important to note that the formula for our Breathe Beta oil is exclusive to Cirrus and will not be found anywhere other than in Cirrus Products.

The stick inhaler uses a cotton wick, which is pre-saturated with the Breathe Beta oil. Using the wick instead of the rub helps prevent any mishaps in terms of pulling the contents out of the stick and into your nose, which can cause a lot of discomfort or pain.

The stick inhaler is refillable. Wick can be re-saturated using oil of the 10ml.

Products in the range include:

Breathe Beta Vaporising Rub with essential Oils for chest and body

Breathe Beta Pure Essential Oil Inhaler

Breathe Beta Sanitising Mask Spray- opens airways and sanitises material and disposable face masks.

KEY FEATURES:

- Refreshing Aroma opens up airways
- Pure Blend of essential Oils.
- Excellent quality
- Soothing and comforting
- Easy to open tin.
- Sanitising Mask Spray- suitable for Material/ disposable masks.

BREATHE BETA RUB SKU 72368

PURE EUCALYPTUS ESSENTIAL OIL

Cirrus Pure Eucalyptus Oil

Diluted 40/60 ratio with olive and seed oil blend, as to make it safe to use on the skin

Eucalyptus oil is available as an essential oil that is used to assist treatment of a variety of common conditions including nasal congestion, asthma, and as a tick repellent. It can be used in warm water to steam. Diluted eucalyptus oil may also be applied to the skin as a remedy for problems such as arthritis and skin ulcers.

HAIR FOR YOU

HFY HAIRLINE REPAIRER & GROWTH TONIC

The first step... A completely natural and organic product containing no animal or hormonal by-products, heavily saturated with minerals and key proteins for strengthening hair. The growth tonic is a vasodilator, which means that it dilates the capillaries in the scalp, creating a highway for all the proteins and minerals to reach the hair follicle.

To understand the function of the growth tonic, we need to know that hair grows in four phases:

- Growing phase - New hair follicle forming (Anagen)
- Transition phase - Hair roots deeply into dermal papilla, creating a clubbed root, separating from the follicle root. Hair growth slows during this phase (Catagen)
- Dormant hair - This is when the hair stops growing before apoptosis (Cell death) occurs (Telogen)
- Shedding Hair - Apoptosis occurs and new growth from within the follicle pushes out the old hair, and the cycle repeats (Exogen)

The purpose of the growth tonic is to prolong the first two phases of hair growth and minimise shedding, thus resulting in thicker, stronger hair.

FEATURES:

- Should be used daily and continuously for at least 3 months for the best results
- STEP1

HFY REPAIRING TREATMENT

The next step... Used in conjunction with the Growth Tonic, as the growth tonic contains many proteins, it will have a tendency to make hair dry, which can result in brittle hair. Thus we need to reintroduce moisture to the hair with the repairing treatment. The repairing treatment, with a unique blend of Argan and Jojoba oil will moisturise, and protect the hair from breakage. Regular use also treats flakiness and itchy scalp. The Repairing Treatment is perfect for Winter hair that tends to flake and dry causing itchy scalps.

FEATURES:

- No hormones
- No animal by- products
- Use as a hair mask or daily leave-in treatment
- STEP 2

HAIR FOR YOU

HFY THICKENING SHAMPOO & ENRICHING CONDITIONER

This Thickening Shampoo & Enriching conditioner combo contains vital vitamins and minerals that not only cleanse the hair, preventing build up of product, but re-energises scalp and hair follicles amplifying the results of the Growth tonic.

Not only does the product have a luscious feel, but has a beautiful floral signature smell, due to the product consisting mostly of flower and root extracts to give you that fresh and invigorated feel.

Examples of the floral and root extracts are, to name a few:

- Peppermint oil
- Moringa seed oil
- Burdock root extract
- white nettle extract
- Pine cone extract
- Chamomile flower extract
- Rosemary leaf extract

FEATURES:

- Thickens and enriches
- Adds Vitamins A , E and C
- Strengthens hair follicles
- Improves circulation
- Regulates sebum
- Contains anti-oxidants
- Re-energises sluggish hair follicles to stimulate growth.

HFY THICKENING SHAMPOO SKU 89195 250ML
HFY ENRICHING CONDITIONER SKU 89201 250ML

HAIR FOR YOU

HFY PURE HAIR OIL

This luxurious blend of pure oils works to feed hair follicles with key ingredients, to not only stimulate growth, but also to prevent hair loss, and add moisture. Daily use of this miraculous oil soothes, rejuvenates, and delivers lustrous shine from root to tip. Warmed slightly, the HFY Pure Hair Oil can be used as a hair mask.

The product goes through a process called "Double Boiling" which should prevent the coconut oil in the product from solidifying and clumping. Capped with a kas spout for convenient and mess free application.

Ingredients:

- Castor Oil
- Coconut oil
- Olive Oil
- Peppermint Oil
- Lavender Oil
- Tea Tree Oil

HFY DETANGLING REFRESH CLEANING SPRAY

This natural sanitising spray contains Moringa Oil which provides cleansing, anti- inflammatory & anti- oxidant benefits to promote healthy hair and scalp. Great application benefits for those wearing weaves or wigs, as the refresh spray does what the name implies by helping to reduce any inflammation on the scalp, removing any odours that may be present, and revitalising the look of the wig or weave.

FEATURES:

- Cleans, sanitises and refreshes
- Adds vitamins A and E
- Detangles wigs/weaves leaving scalp fresh and clean.

CLEARSCAR

CLEARSCAR SILICONE GEL SHEETING

How does it work?

Clearscar works by creating a seal around the scar, which in turn will cause your skin to perspire under the plaster. The moisture from the perspiration will react with the silicone of the plaster and the epidermis, helping to reduce and break down the collagen build-up (bulging scars such as keloid and hypertrophic scars are caused by an overproduction of collagen in response to skin trauma) and to regulate the production of Fibroblast (a fibrous cellular material that secretes collagen and contributes and supports other connective tissue, thus aiding skin in healing in a more woven fashion, instead of linear collagen growth, which causes the shiny appearance of scars.)

FEATURES:

- 2 Pack
- Reusable
- Creates an optimal oxygen and moisture level
- Breaks down scar tissue
- Provides scar support
- Reduces itchiness
- Helps keloid and hypertrophic scarring
- Surgical versions available

SANI NAPPI

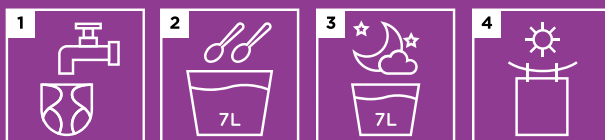

BABY CLOTHES, LINEN, TOWELS, NAPPIES, WORK CLOTHS & SURFACES

Steriliser with **DOUBLE STRENGTH** formula (2% Hypochlorite, twice as strong as our nearest competitor)

Whitening, stain remover & All Purpose steriliser

Improved innovative formulation for sterilizing & sanitising in a liquid for bottles or powder for linen and clothing
